REPORT ON REVIEW OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

To The Board of Directors, Shuaiba Industrial Company K.P.S.C. State of Kuwait

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Shuaiba Industrial Company K.P.S.C. (the "Parent Company") and its subsidiary (together referred to as the "Group") as at 30 June 2018, and the interim condensed consolidated statement of profit or loss, the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six month period then ended. The Parent Company's management is responsible for the preparation and fair presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing ("ISA") and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Other Matter

The consolidated financial statements of the Group for the year ended 31 December 2017 and the interim condensed consolidated financial information for the six month period ended 30 June 2017 were audited and reviewed, respectively, by another auditor who expressed unmodified opinion and conclusion on those statements on 12 March 2018 and 6 August 2017, respectively.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34: Interim Financial Reporting.

Report on other legal and regulatory requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that nothing has come to our attention indicating any violations of the Companies' Law No. 1 of 2016, and its Executive Regulations, as amended, nor of the Parent Company's Memorandum and Articles of Association, as amended, have occurred during the six month period ended 30 June 2018, that might have had a material effect on business of the Group or its interim condensed consolidated financial position.

1. GENERAL INFORMATION

Shuaiba Industrial Company K.P.S.C. (the "Parent Company") is a public shareholding company incorporated in 1978 under the Laws of the State of Kuwait and is listed on Boursa Kuwait.

The Parent Company's objectives are as follows:

- 1. Manufacture of paper cement bags for packing of cement and similar products.
- 2. Import and export material required for the Parent Company's objectives.

The Parent Company may have interests or participate in any suitable way with entities that engage in similar business activities or that may help the Parent Company achieve its objectives inside Kuwait and abroad. The Parent Company may also purchase such entities or affiliate them.

At the Annual General Assembly held on 29 March 2010, the shareholders approved the Group to conduct its activities in accordance with Islamic Sharia Principles.

The address of the Parent Company's registered office is P.O. Box, 10088, Shuaiba 65451, State of Kuwait.

The interim condensed consolidated financial information of the Group for the six month period ended 30 June 2018 were authorised for issue in accordance with a resolution of the Board of Directors of the Parent Company on 30 July 2018.

2. BASIS OF PREPARATION

These interim condensed consolidated financial information have been prepared in accordance with IAS 34 Interim Financial Reporting, and should be read in conjunction with the Group's last annual consolidated financial statements as at and for the year ended 31 December 2017 ('last annual consolidated financial statements'). They do not include all of the information required for a complete set of IFRSs financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements. Changes to significant accounting policies are described in Note 2 (A and B).

Use of judgements and estimates

In preparing this interim condensed consolidated financial information, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated financial statements, except for new significant judgements and key sources of estimation uncertainty related to the application of IFRS 15 and IFRS 9, which are described below.

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements.

2. BASIS OF PREPARATION (CONTINUED)

Use of judgements and estimates (continued)

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3:inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Further information about the assumptions made in measuring fair values is included in Note 16.

Changes in significant accounting policies

Except as described below, the accounting policies applied in this interim condensed consolidated financial information are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2017.

The changes in accounting policies are also expected to be reflected in the Group's consolidated financial statements as at and for the year ending 31 December 2018.

The Group has initially adopted IFRS 15 *Revenue from Contracts with Customers* (see A below) and IFRS 9 *Financial Instruments* (see B below) from 1 January 2018. A number of other new amendments are effective from 1 January 2018 but they do not have a material effect on the Group's interim condensed consolidated financial information.

A) IFRS 15 Revenue from Contracts with Customers

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaced IAS 18 Revenue, IAS 11 Construction Contracts and related interpretations, IFRICs 13, 15, 18, and SIC 31.

Adoption of IFRS 15 by the Group at 1 January 2018 had no impact on the Group's consolidated financial statements as at 31 December 2017 and the interim condensed consolidated financial information for the six month period ended 30 June 2018 as majority of the Group's revenues are within the scope of IFRS 15 as represented by the following:

Manufacturing and sale of paper products:

Performance obligations related to the Group's manufacturing and sale of paper products are satisfied at a point in time typically on delivery of the products as the Group predominantly manufactures those products to specific orders.

Other Revenue:

The other revenue types of the Group are mainly represented by investments income from share of associate's results and the unrealized/realized gains/losses from financials assets at fair value through profit or loss which are outside the scope of IFRS 15.

2. BASIS OF PREPARATION (CONTINUED)

Set out below is the disaggregation of the Group's revenue from contracts with customers:

	For the six month period ended 30 June 2018					
	Industrial Packaging Division	Consumer Packaging Division	Flexible Packaging Division	Trading Division	Total

The Group's segmental information is disclosed in Note 14.

2. BASIS OF PREPARATION (CONTINUED)

B) IFRS 9 Financial instruments

IFRS 9 sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 *Financial Instruments: Recognition and Measurement.*

The following table summarises the impact of transition to IFRS 9 on the opening balance of retained earnings (for a description of the transition method, see note below).

1 January 2018	Note	Impact of adopting IFRS 9 on opening balance (KD)
Retained earnings	4	(25,940)

The details of new significant accounting policies and the nature and effect of the changes to previous accounting policies are set out below:

i. Classification and measurement of financial assets and financial liabilities

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables and available for sale.

The adoption of IFRS 9 has not had a significant effect on the Group's accounting policies related to financial liabilities. The impact of IFRS 9 on the classification and measurement of financial assets is set out below:

Under IFRS 9, on initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL. The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

2. BASIS OF PREPARATION (CONTINUED)

B) IFRS 9 Financial Instruments (Continued)

i. Classification and measurement of financial assets and financial liabilities (continued)

The following accounting policies apply to the subsequent measurement of financial assets:

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses (see i (b) below). Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses
Equity investments at FVOCI	accumulated in OCI are reclassified to profit or loss. These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

The effect of adopting IFRS 9 on the carrying amounts of financial assets at 1 January 2018 relates solely to the new impairment requirements, as described further below.

The following table and the accompanying notes below explain the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 for each class of the Group's financial assets as at 1 January 2018.

	Notes	Original classification under IAS 39	New classification under IFRS 9	Original carrying amount under IAS 39	New carrying amount under IFRS 9	Impact on adoption of IFRS 9
Financial assets				KD	KD	KD
Cash and cash equivalents		Loans and receivables	Amortised cost	2,776,342	2,776,342	-
Term deposit		Loans and receivables	Amortised cost	600,000	600,000	-
Equity securities	a	Designated as at FVTPL	Mandatorily at FVTPL	66,118	66,118	-
Trade and other receivables (excluding prepayments)	b	Loans and receivables	Amortised cost	3,520,321	3,494,381	(25,940)
Total				6,962,781	6,936,841	(25,940)

(a) Under IAS 39, these equity securities were designated as at FVTPL because they were managed on a fair value basis and their performance was monitored on this basis. These assets have been classified as mandatorily measured at FVTPL under IFRS 9.

(b) Trade receivables that were classified as loans and receivables under IAS 39 are now classified at amortised cost. An increase of KD 25,940 in the allowance for impairment over these receivables was recognised in opening retained earnings at 1 January 2018 on transition to IFRS 9. No additional trade receivables recognised at 1 January 2018 on the adoption of IFRS 15.

Notes to the interim condensed consolidated financial information (Unaudited) For the six month period ended 30 June 2018

2. BASIS OF PREPARATION (CONTINUED)

B) IFRS 9 Financial Instruments (Continued)

ii. Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The new impairment model applies to financial assets measured at amortised cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognised earlier than under IAS 39.

The financial assets at amortised cost consist of cash and cash equivalents, term deposit and trade and other receivables.

Under IFRS 9, loss allowances are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured as 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities, bank balances, and term deposit for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Group has elected to measure loss allowances for trade receivables at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Notes to the interim condensed consolidated financial information (Unaudited) For the six month period ended 30 June 2018

2. BASIS OF PREPARATION (CONTINUED)

B) IFRS 9 Financial Instruments (Continued)

ii. Impairment of financial assets (continued)

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Presentation of impairment

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Impairment losses related to trade receivables, including contract assets, are presented separately in the interim condensed consolidated statement of profit or loss.

Impact of the new impairment model

For assets in the scope of the IFRS 9 impairment model, impairment losses are generally expected to increase and become more volatile. The Group has determined that the application of IFRS 9's impairment requirements at 1 January 2018 results in an additional impairment allowance as follows:

Loss allowance at 31 December 2017 under IAS 39	Amount (KD)
Additional impairment recognised at 1 January 2018 on:	
- Trade and other receivables as at 31 December 2017 (Note 4)	(25,940)

Trade receivables and contract assets

The following analysis provides further detail about the calculation of ECLs related to trade receivables and contract assets on the adoption of IFRS 9. The Group considers the model and some of the assumptions used in calculating these ECLs as key sources of estimation uncertainty.

The ECLs were calculated based on actual credit loss experience over the past 3 years. The Group performed the calculation of ECL rates for its customers.

Exposures within each group were segmented based on common credit risk characteristics such as credit risk grade, geographic region and industry, delinquency status, age of relationship and type of product purchased where applicable.

Actual credit loss experience was adjusted by scalar factors to reflect differences between economic conditions during the period over which the historical data was collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Notes to the interim condensed consolidated financial information (Unaudited) For the six month period ended 30 June 2018

2. BASIS OF PREPARATION (CONTINUED)

B) IFRS 9 Financial Instruments (Continued)

ii. Impairment of financial assets (continued)

The following table provides information about the exposure to credit risk and ECLs as at 1 January 2018.

	Weighted average loss rate	Gross carrying amount	Credit impaired
		KD	
0-90 days past due	0.39%	3,282,766	No
91-180 days past due	7.5%	107,482	No
181-270 days past due	12.5%	15,382	No
271-360 days past due	100%	38,043	No
Above 360 days past due	100%	78,191	Yes

- At 1 January 2018, as a result of adoption of IFRS 9, the Group recorded an additional provision for doubtful debts amounting to KD 25,940 (Note 4).

iii. Transition

The Group has taken an exemption not to restate comparative information for prior periods with respect to classification and measurement (including impairment) requirements. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognised in retained earnings as at 1 January 2018. Accordingly, the information presented for 2017 does not generally reflect the requirements of IFRS 9 but rather those of IAS 39.

3. PROPERTY, PLANT AND EQUIPMENT

	(Audited)	
30 June	31 December	30 June

5. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS ("FVTPL")

Under IAS 39, these equity securities were designated as at FVTPL because they were managed on a fair value basis and their performance was monitored on this basis. These assets have been classified as mandatorily measured at FVTPL under IFRS 9.

Financial assets at fair value through profit or loss are managed by a portfolio manager, under a portfolio management agreement.

Valuation techniques of financial assets at fair value through profit or loss ("FVTPL") are disclosed in Note 16.

6. CASH AND CASH EQUIVALENTS

		(Audited)	
	30 June 2018	31 December 2017	30 June 2017
	KD	KD	KD
Short term deposits	-	550,000	-
Bank balances	1,168,013	2,221,620	2,380,826
Cash on hand and with portfolio manager	17,250	4,722	13,692
	1,185,263	2,776,342	2,394,518

Short term deposits denominated in Kuwaiti Dinars are placed with local banks and mature within three months from the placement date. The average yield rate at 31 December 2017 was 1.88% per annum.

7. SHARE CAPITAL

The authorized, issued and paid up share capital is KD 10,069,180 (31 December 2017: KD 10,069,180 and 30 June 2017: KD 10,069,180) comprising of 100,691,795 shares of 100 fils each (31 December 2017: 100,691,795 and 30 June 2017: 100,691,795 shares of 100 fils each) and all shares are paid in cash.

Notes to the interim condensed consolidated financial information (Unaudited)

For the six month period ended 30 June 2018

8. TREASURY SHARES

	30 June 2018	30 June 2017	
Number of shares	1,454,028	1,454,028	1,454,028
Percentage to issued shares (%)	1.44%	1.44%	1.44%
Market value (KD)	362,053	350,421	436,209
Cost (KD)	164,740	164,740	164,740

The Parent Company is committed to retain reserves, share premium and retained earnings equivalent to the cost of treasury shares throughout the period, in which they are held by the Parent Company, pursuant to instructions of the relevant regulatory authorities.

9. TERM LOANS

	30 June 2018	(Audited) 31 December 2017	30 June 2017
	KD	KD	KD
Non-current portion	829,988	1,299,292	1,492,468
Current portion	644,000	386,352	285,176
	1,473,988	1,685,644	1,777,644

Term loans represent credit refinance facilities (the "facilities") obtained from a local bank. The facilities are used to finance purchases of equipment and machinery to expand the Group's plant. The facilities carry a profit rate of 3.5% semiannually (31 December 2017 and 30 June 2017: 3.5% semiannually) and repayable as shown below:

Facility amount	Payable amount	Current portion	Non current portion	Maturity date
KD	KD	KD	KD	
220,000	66,000	44,000	22,000	December 2019
2,800,000	1,407,988	600,000	807,988	November 2022
	1,473,988	644,000	829,988	

The facilities are mortgaged by certain property, plant and equipment (Note 3) in favor of the bank. It also requires, among other matters, certain restrictions on the payment of dividends and a requirement to maintain a minimum leverage ratio (current assets to current liabilities) of 1.5:1.

10. **TRADE AND OTHER PAYABLES**

	30 June 2018 KD	(Audited) 31 December 2017 KD	30 June 2017 KD

14. SEGMENTAL INFORMATION

The Group identifies its operating segments based on internal management reporting information that is regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. The Parent Company's Chief Executive Officer is the Group's chief operating decision maker and has grouped the Group's products into the following operating segments:

- *Industrial Packaging Division:* Produces and supplies multi-wall paper sacks for industrial use.
- Consumer Packaging Division: Produces and supplies various types of superior value and high quality bags and wrapping sheets to major regional and international chains.
- *Flexible Packaging Division:* Produces and supplies multi-ply printed and laminated films, including aluminum foil lamination.
- *Trading Division:* Importing and trading in various types of paper related products such as photo copier paper, offset paper, NCR, coated paper and ink.

For the purpose of monitoring segment performance, the Group does not allocate its total assets and liabilities between segments.

15. ANNUAL GENERAL ASSEMBLY MEETING

The Annual Ordinary General Assembly of the shareholders of the Parent Company held on 22 April 2018 approved the following:

- The consolidated financial statements of the Group for the financial year ended 31 December 2017.
- Distribution of cash dividends of 17% equivalent to 17 fils per share on outstanding shares excluding treasury shares, amounting to KD 1,687,042 for the financial year ended 31 December 2017 to the shareholders of the Parent Company's record as at the accrual date (2016: KD 1,587,807 and KD 2,013,837 representing cash dividends and bonus shares, respectively. The bonus shares were issued through utilisation of retained earnings and voluntary reserve by KD 1,747,149 and KD 266,688, respectively).
- KD 30,000 as a remuneration to be paid to the Board of Directors for the financial year ended 31 December 2017 (2016: KD 35,000).

For the six month period ended 30 June 2018

16. FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: inputs are inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

- Level 3: inputs are unobservable inputs for the asset or liability.

30 June 2018	Level 1	Total
Financial assets at fair value through profit or loss ("FVTPL")	KD	KD
Local quoted securities	64,916	64,916
